

VirtualCheckup®

By Catapult Health

Feeling fine is good. Knowing you're fine is better.

Zero-Cost To You

No cost for covered employees, covered spouses & covered dependents (18+).

No Appointments Needed

Complete your checkup in under 30 minutes from the comfort and privacy of your home.

Virtually Painless

Collect your lab sample with a push of a button.

Earn your Reward!

Earn up to \$900 in premium differentials.*

What is a VirtualCheckup Home Kit?

The VirtualCheckup Home Kit is an easy-to-use, at-home health checkup. It can help identify undiscovered health issues, assess key risks you might be facing, and support you in managing known conditions more effectively.

But what if “I feel fine”?

Feeling fine doesn't always mean you're healthy. Understanding your current health status can help you identify any potential issues early, and get advice on how to keep your health on track.
